EDUCATION

Incomplete higher education Sep 2021 – Jul 2025
BSU, Minsk
Faculty of Applied Mathematics and Computer Science
Qualification – "Computer scientist, programmer"
Covered topics:

- Mathematical methods of computer graphics
- Computer graphics programming
- Linear algebra
- Differential calculus
- Web-development
- Probability Theory

Grade point average – 8.3

UNIVERSITY PROJECTS

Computer Graphics Projects
Implementation of raster and vector 2D graphics methods, 3D modeling and image processing using OpenCV library

Computational Methods Projects
Implementing various methods for solving systems of algebraic equations in C++

Algorithms and Data Structures Projects
Solving optimization problems by selecting appropriate data structures and implementing optimal algorithms

COURSES

.NET Development EPAM & EPAM Training Center	Jul 2022
Java Development EPAM & EPAM Training Center	Jun 2022
Version Control with Git EPAM & EPAM Training Center	Jul 2022

SKILLS

Programming Languages: C/C++ (Boost), C#, Java, Swift, Objective-C, Python, HTML/CSS, JavaScript

Working with MacOS, Linux and Windows operating systems

Time Management, Teamwork, Documentation, Unit testing

Databases: MySQL SQLite

Version Control: Git, GitHub, GitLab

QUALITIES

■ Communicative

■ Team player

■ Responsible

■ Creative

LANGUAGES

Russian

English
